

Amazing Design from some of the Best New Architects in Thailand

"Thailand Architects have been wonderful to work with. From the very beginning they have been thorough, helpful, understanding and professional. We knew very little about design, and they have taken us through the process painlessly. They have brought together our aim for a modern yet traditional design. Their skill has exceeded our expectations. We would highly recommend them to anyone requiring expert architecture."

-Mrs. Piyaupsorn Leahy

Wow...what a recommendation and what a super team of architects this is. This fabulous new web site "thailandarchitects.com" showcases works by some of Thailand's best new architects; providing you an excellent answer to all your design requirements. Based in Bangkok their professional service takes them all over Thailand, as well as neighbouring countries such as Vietnam, Cambodia, Burma, Singapore, Hong Kong, China and the Middle East. They bring a welcome team of experts with both English and Thai speakers. They offer first class design at fair prices, dependable advice and exciting architecture. If you need an architect, I strongly recommend you take a look at their website.

The Design Team

The Thai design team includes such well known architects as Yos Kangvankiattichai and Arnut Suriyakhun. Both enjoy a successful reputation as designers of real quality. Yos Kangvankiattichai has been designing beautiful homes all over Thailand for many years and is widely known for his varying house design styles and kind customer care. He is currently working on three new homes for clients in Thailand; one of which is a beautiful Tuscan style luxury home with indoor pool, solar power and Jacuzzi.

Arnut Suriyakhun is a highly experienced and a most creative designer; widely renowned for his attention to detail, love of Thai architecture and list of highly acclaimed projects. This includes being instrumental in the design of the amazing Mandarin Oriental 'Dara Dhevi Hotel' in Chiang Mai and many commercial developments such as shopping stores, condominiums, schools and public facilities.

Fair and Reasonable Price Policy

As someone who has used the services of architects I must say I am impressed. They work closely with you either in meetings or via e-mail and do so until you are happy with the results. They make an allowance for a certain amount of changes. Once you are happy they can then move on to full architectural construction drawings. Normal drawings of houses take anywhere from 8-20 weeks depending on the detail and what you require. Larger projects naturally can take longer but details and updates are provided. Their fees are extremely favourable to the customer and certainly lower than most. Quality of work is some of the best in the business.

If you are doing any form of construction project, whether it's a house, office, luxury hotel or condo project you are going to need a licensed architect. You have to start with an architect and work closely with them to achieve your end results. It is paramount to get good solid advice and know you are being looked after. Thailandarchitects.com is one of the best places to start.

What do they Design?

Basically almost any type of property you can imagine. They help with houses, bungalows, luxury villas, hotels, resorts, spas, condo projects, shopping malls, factories, offices and public facilities. The choices are yours to make. If you require more information you can e-mail them direct at info@thailandarchitects.com. I am sure you will be very pleased with the results. Their portfolio of works is most impressive and they have helped many people successfully create wonderful designs. However you be the judge. Try them and see. Go to www.thailandarchitects.com and start that exciting new journey of discovery and design.
